## DELTRIGEX COMFORT MASK CAT II

### APPLICATIONS

These Masks provide users with superior efficiency and exceptional comfort.

This mask is not a medical device, either a PPE (personal protective equipment)

This mask covers the mouth, nose and chin.

The mask is washable in cycles of 30min at 60°C

### ADVANTAGES

- >70% efficiency for the filtration of bacterial particles
- Extremely breathable > 160 l / (m².s) according ISO 9237 (1995)
- Comfort in use, light weight and pleasant feel on skin
- Media according AFNOR regulation SPEC S76-001
- type design flat with folds

### GENERAL FEATURES

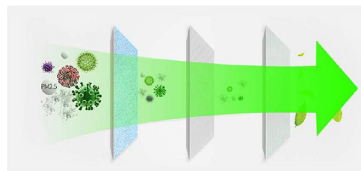

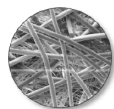

- Types of fixation: to attach / with bands around the head /with loops around the ears
- Material polypropylene 3 in 1 solution 50g / m2
- Bacterial filtration efficiency (BFE): >70% according EN14683:2019 + AC2019
- Packaging: 50 pcs per package, 40 packages per cardboard box

### DIMENSIONS and FEATURES

Attachment types	APC particles emission $\geq 0.5 \mu\text{m}$	Length (a)	width (b)
With earband around the ears	289 particles / piece	17.5 cm ( $\pm 0.5$ cm)	9.5 cm ( $\pm 0.5$ cm)

### TECHNICAL DATA

Color	White
Material 3-in-1	Polypropylene unique meltblown technology, multi layer composite material no lamination needed
Values	Test Method
Bacterial Filter Efficiency (BFE)	> 70% ASTM F2101-14, EN 14683 : 2019, Annex C, AS4381: 2015
Air permeability	> 160 l / (m².s) ISO 9237 (1995)
Filter Media Efficiency	> 79% @ 3 micron ISO 16890-2 (2016)
